BERKAY PEHLİVAN

SOFTWARE DEVELOPER | IT

I'm a Computer Programming graduate passionate about software development and DevOps. I've built a solid foundation in C#, .NET, MSSQL, Java, and Unity through various school and side projects. I also gained practical IT support experience during my internship.

SKILLS

Programming
- C#
- .NET
- Java
- MSSQL
- PostgreSQL

Development
- Unity
- Clean Architecture
- Object-Oriented Programming

IT
- Basic IT Support
- Hardware & Software Support

DevOps
- Docker
- Git / GitHub
- Linux

EDUCATION

Computer Programming
Associate Degree
Adnan Menderes University | 2022 - 2024

Management Information Systems
Bachelor's Degree (Open Education)
Anadolu University | 2024 - Present

EXPERIENCE

IT INTERN
E.C.A. EMAS Makina Sanayi A.Ş. | 07.2024 - 08.2024
- Assisted with computer inventory management.
- Supported hardware and software troubleshooting.
- Assisted with software testing and documentation.
- Provided basic technical support to employees.

2D GAME PROJECT
Unity Editor & C# | 10.2023 - 02.2024
- Developed a platform and action game from scratch using Unity and C#.
- Programmed core game mechanics and logic over 50+ hours of development.
- Designed and implemented all original levels and gameplay architecture.
- Integrated ready-to-use graphic and design assets into the custom codebase.

INVENTORY MANAGEMENT SYSTEM
C# .NET Framework | 07.2024 - 08.2024
- Developed a system to list and process data based on inventory numbers.
- Designed a main dashboard featuring data visualization graphs and summary boxes.
- Implemented admin capabilities for comprehensive user and location data management.
- Integrated CRUD operations and QR code generation within the inventory module.
